

Ottawa Grants

(Continued from Page 1)

the calculation of subsidies," the brief said, "have caused confusion as to whether the main purpose of the conference is to secure that provinces shall be in a position to discharge their constitutional obligations or merely to ensure that the powers of taxation shall be centralized in Ottawa."

"Despite the general feeling of pessimism that seems to be prevalent the Saskatchewan government still believes that a satisfactory agreement will be achieved. Such an agreement should be on the basis of putting the province in a position to discharge constitutional functions rather than on a basis of trading with the object of centralizing the taxing power at Ottawa."

The submission said that at the first meeting of the federal and provincial governments in August, 1945, it was proposed that the dominion pay the provinces the sum of \$12 per capita annually on the basis of 1941 population, in lieu of present statutory subsidies and payments.

Last January, the Dominion proposed to increase its grant to \$13 per capita based on the 1942 population. Saskatchewan would have, on the basis of the 1941 population, received \$12.40 and on the basis of the 1942 population it would receive \$12.70.

"Saskatchewan is the only province that loses through substitution of the new plan," the brief said. "In almost every instance the gains to the other provinces are very substantial."

"It is unlikely that people should be prejudiced by the act of living in one part of the country rather than another."

THERE OUGHTA TO BE A LAW

by Fagaly & Shorten

68 MPH Wind

(Continued from Page 1)

Lowest temperature during the day was at 11:30 p.m. Overnight minimum was 32 at a station on the south shore of Lake Athabasca. Windy weather today is 35, with the forecast being "cloudy this afternoon, then clear and calm, strong winds decreasing tonight."

"The sun sets at 7:36 p.m. Sunday rises at 5:40 a.m. Monday. Friday's high winds compared "favorably" with breezes of other years, according to records at the weather office.

The highest gust reported in this city since the war was established by an anemometer on night 32, instrument in 1945, was on March 20, when the wind gust to 68 mph was reached. Maximum speed of wind in any ten-minute period was also March 8, 1945, that being 60 miles an hour. Maximum speed was also March 8, 1945, that being 60 miles an hour.

FRIDAY'S HIGHEST GUST was 68, the ten-minute maximum 60, and the one-hour maximum 58. As far as C.P. Air Lines passengers were concerned it was Friday that was the worst day.

As the distance is approximately 200 air miles the Lodestar travelled 200 miles in about 100 to 180 miles per hour.

Mines Chamber

Appoints Officer

Appointment of F. J. Armstrong as personnel officer with the Alberta and Northwest Chamber of Mines and Metallurgy was announced Saturday by I. E. Drummond, secretary-treasurer.

Mr. Armstrong will work with the headquarters staff of the RCAP for a considerable time. He will be in charge of the committee on light maintenance and will take over his duties some time next week.

PRIOR TO THE WAR he was engaged in the retail trade in an executive capacity, and was for some time representative of a large insurance company.

He has had wide experience in aviation having been licensed as a private pilot prior to the war, and is well acquainted with Alberta and the far north from the many flights he has made in visiting points in the territories, Mr. Drummond said.

His duties here will include interviewing working personnel for mining companies, and others, Mr. Drummond said.

THE LINESUPS

Charles Galt, Sam Barrick, Jacks, Harold Phipps and Jack Harvey. Helve, Bert Turner, John Dabbs and Bert Johnson. Forward, Twine Pfeil, Albert Brown, Arthur Turner, Don Welsh and Chris Duffy.

Derby - Goal, Vic Woodley, Blakes, George A. More, Jack Howe, Halves, Jim Bullions, Leon Leuty and Walter Mann. Forward, Big, Harrison, Horan, Chris, Jack Stamps, Peter Doherty and Douglas Doherty.

Rival captains were Don Welsh and Jack Nicholas.

THE ROYAL

FAMILY arrived five minutes before game time and were given an ovation. The teams lined up on the pitch and were presented to King George.

Both sides were level after 90 minutes of play, halfback Bert Turner having whipped in a goal.

The Bulletin's SPORT SHOW by Hal Dean

SPORTS EDITOR

THIRTY-THREE wins out of 37 starts was the record of the Hamilton Tigers when they hit Regina for the Allan Cup final—and 16 of those 33 were shutouts. And so, although they dropped three in a row before catching up with Calgary Stampede at Saskatoon on Wednesday night, the eastern champions unanimously refuse to be counted out yet.

"Loss of Brady, of course, has been a blow," admitted affable George Redding, coach of the Tigers, on Friday night. "For you see he along with Johnny Conick and Doug Rutledge have been our profit goal producers all season."

"Dillon, as you'll recall, was top scorer in the OHA this year, and not only did he win the title once before, but he also twice finished in second place during the last five seasons."

THE TIGER COACH also added that during that same period Conick headed the list once, which would appear to make OHA scoring title pretty much a Hamilton monopoly. Ralph Shillington, former North Battleford Beaver, was fourth this year.

Queried regarding the possible effect of the big ice surface of the Edmonton arena, Coach Redding declared: "I don't think it will bother our club. Certainly it would suit Brady if he were in his usual form, for that boy really can dance!"

Incidentally, the Hamilton coach stated that Brady definitely would be used tonight, but probably only sparingly. The balance of the team is in good shape. Tigers had a skating drill at the arena yesterday afternoon.

IVAN MILLER, sports editor for the Hamilton Spectator who is accompanying the coaches, declares "The Tigers have the most wonderful spirit I have ever seen in any athletic organization."

"The boys stand or fall together," declared Ivan. "I don't think I will take the blame. Nobody's ever sunk on George's club."

"It has been a strictly team effort which got the Tigers into the Allan Cup final. They may have concentrated too much on beating the favored Montreal Royals for the eastern title, and this might explain the first two games with Calgary. But they're all in the deal together and they are coming back fast now."

AND FURTHER illustrating the attitude of the Tigers, the Hamilton sportscribe (who admits his other weakness is baseball) proceeded to describe a situation which arose at the conclusion of the league season.

"A gold watch had been offered

to the winner of the Allan Cup. The coaches and players of all of the teams were in turn to be applauded by the assembly, then like Hahn donor of the pee-wee league championship trophy presented Sunland's captain, George McAvoy, with the trophy.

Jack Bonnyman went up to get Sunland's second award, the city pee-wee championship cup, donated by the Hudson's Bay Company and presented by A. S. Woodard, advertising manager.

The members of the Sunland set also received gifts and sales manager Jack Miller of Sunland Biscuit Company presented each of the players with one-year membership in the YMCA.

The entertainments opened with a fine display of roller skating staged by a team from the Silver Glade.

This was followed by a half hour's confining show then the evening ended with a dancing act put on by pupils from the Ideal Davidson school of dancing.

On some of the rivers of China, rowboats are driven by ducks.

Boston Club
Beaten 6-3
In Rubber

VANCOUVER, April 27—(CP)—Vancouver Canucks captured the Walter A. Brown Trophy, emblematic of the United States amateur hockey championship, last night when they outclassed Boston Olympics 6-3 in the final game of their best-of-seven series.

The convincing victory in the closing tilt of a hard-fought series clinched an uphill battle for Canucks who trailed their Boston rivals three games to one at an earlier stage.

A sell-out crowd of 5,000 fans saw Vancouver grab a 2-1 lead in the opening period, extend it to 5-1 in the second stanza and go on to outscore Olympics 3-2 in the final frame.

LED BY THEIR power line of Elmer Kreller, Bill Carse and Al McDougall who accounted for four tallies, Vancouver held an edge in play throughout.

It was a bruising game all the way with 18 penalties handed out, including four minors to Eddie Barry of Boston.

McDougall topped the scoring for the Canucks with two goals. An assist while other Vancouver goal-getters were Bernie Bathand, Carse, Alex Pringle and Kreller.

BOBBY SCHNEER, Pete Bathand and Barry scored for Boston. Immediately after the game a happy squad of Canucks were presented with the Walter A. Brown Trophy by Al Leader, managing director of the Pacific Coast Hockey League.

The opening period was less than three minutes old when Canucks broke into the scoring column on a relay between McDougall and Carse who backhanded a shot past Harvey Bennett.

Bathand tied it up a minute later on the ficklest goal seen here this season. He let a shot from the blue line that missed the net by a good five feet, rebounded off the backboards, hit goalie Ed McAnole on the back of the leg and bounced in and out of the net.

CARSE SET UP a pass which McDougall converted at 14:13 to give Vancouver the 2-1 margin.

They added one more just before the second frame ended with Pringle passing to Bathand.

The first frame saw Boston make a concerted effort to get back into the game but Vancouver's backchecking combined with an effective passing combination gave them the edge.

Schneer took a pass from Marquies for their second goal of the same but Pringle retaliated at 20:00.

Will Supply Coaches

Plan to Help Minor Tennis

Announced by City Group

The Edmonton Tennis Association, headed by president Harry Kinloch, well known city racket wielder, is this year launching a program which they think will again put tennis on a high standard in the city.

After sitting back as far as helping to develop players goes during the war, the association has come up with a plan to supply coaches for any club in the city upon request to any member of the executive.

A capable staff of coaches, headed by Capt. Ray Gould of the U.S. army, former professional at Point O' Woods Club, Long Island, New York for three years, has been obtained.

Other coaches appointed are Andy "Shocks" Purcell, Fred J. Mitchell, Dr. Hal Richard, Stuart Harris, George Docherty, Les McManus, Jack McIlwain, Tudor Edmunds, Harry Kinloch.

Could, who has performed in some of the top tournaments in the United States, will hold classes for coaches, giving them the benefit of his experience.

Along with this announcement, dues for some of the events have been set.

High-producing dairy cows require large amounts of minerals in their feed.

Sanitary Course Is Held in City

Twenty-five sanitary inspectors of the province have been attending a refresher course in Sanitary Inspection at the University of Alberta during the last week. The course is under the direction of the provincial department of health in co-operation with the faculty of agriculture and the department of extension, University of Alberta. A similar course was held in January, 1945.

DURING ONE DAY of the course Tuesday, April 23, the inspectors were joined by representatives of the Alberta Restaurant Association, the Alberta Hotel Association and the Alberta Liquor Control Board. The program on this day was in charge of Dr. G. M. Little, Edmonton medical officer of health, and dealt with problems of sanitation in connection with food-handling establishments and beverage rooms.

On other days during the week speakers included Dr. M. R. Bow, deputy minister of health; Dr. R. D. Sinclair, dean of the faculty of agriculture; Dr. A. Somerville, director, division of communicable diseases; J. H. Brown, public health entomologist; City Commissioner D. B. Menzies; and Dan Campbell, director of publicity and travel bureau.

TWO AFTERNOONS were given over to laboratory work and demonstrations, one afternoon under the direction of Dr. R. M. Shaw, acting provincial bacteriologist, and the other under the direction of Dr. H. R. Thorpe, head of the University department of dairying.

Chairmen for the sessions were J. Butterfield, provincial sanitary inspector, and W. Phillips of the Calgary Board of Health.

NEW APPOINTMENT

The Great-West Life Assurance Company announces the appointment of E. G. Lamb as Loan Manager for Edmonton district. Mr. Lamb's office is located at 901 McLeod Building, with facilities for financing new homes, apartment blocks and refinancing of mortgages. (Adv.)

FURTHER PROOF THAT SPRING IS HERE—Above is a scene in St. George's Crescent as a group of young people enjoyed a ride in the warm Alberta sunshine. In the picture, left to right are: Jocelyn Maley, 10529 125 street; Mary Boeck, 12320 104 avenue; Anne Armstrong, 104 St.

Lions' Club Opens Branch at Leduc

The thirtieth club in district 37D of the Lions Clubs of Canada was born Thursday evening at Leduc when Arthur Young, president of the Edmonton club, together with the executive and about 20 members, motored to the town and participated in the inaugural ceremonies.

THE PRESIDENT of the new club is "Pat" Patterson, formerly on the staff of P. Burns here, and who now operates a meat market in Leduc.

The new club starts off with a membership of 15 and it is expected this will be increased in the next few months.

Telegrams of congratulation were read from many of the clubs of the district and the district governor, Marshall Murray of Kalspell, Man., in a communication expressed his regret at not being

able to be present, and extended greetings to the new club and its members. He stated that the progressive principles embodied in the heart of Lionism would stand the members in good stead where ever they might be, and that the initiation of a Lions club in any town is a tribute to the social spirit of its citizens.

"On behalf of the position which I feel honored and privileged to represent as your governor, please accept my deepest congratulations and best wishes for the prosperity of the new club, and may it be successful in all its service enterprises," Mr. Murray's message concluded.

MR. YOUNG SPOKE briefly on behalf of the Edmonton club, and following the ceremonies the Edmonton delegation of visitors were entertained at the home of W. A. Bradbury.

There are approximately one to one and one-fourth gallons of blood pressed in the human body.

George's Crescent; Dennis Batch, 5524 101 avenue; Donna Knight, 10548 127 street; Nan Short, 14910 115 avenue; Fay Ingles, 10214 116 street; Kay Petrie, 11009 89 avenue; Olive Wilkinson, 7780 Jasper avenue; Patty Hale, 10615 127 street.

Book Review

West Nor' West
By J. W. HORN

Published by Northgate Books, Edmonton, Price 12

In recent years there has been a decided increase in the amount of material written about this province and comprehensive, exhaustive and highly commendable efforts are being made to gather together essential historical data for the benefit of posterity before the source records, already widely dispersed, are no longer available.

J. W. Horn of this city, has been and still is indefatigable in his chosen field of collecting information on Alberta and its people. Already widely known through previous books, "Songs of the North," and "On the Side of the Law," he has just produced his

finest work to date, "West Nor' West."

It is modestly claimed by the publishers that it is the "most adequate, accurate and up-to-date history book of Alberta yet written. It covers practically everything of interest in importance to school teachers and students, to old timers and newcomers."

There will be no disputing the statement that it contains a wealth of information, some of which has not been published before and much of which already is available somewhere if you know where to look for it. But, nowhere, in a single book, in such attractive, readable form, will one find such a plenitude of folklore, anecdotes and factual information about this province as within the covers of this volume.

A satisfying feature is that it is an all-Edmonton production. It was authored here; it was printed, engraved, sewed, bound and decorated by Edmontonians. Possibly book-publishing hereafter may be added to the ever-growing list of industries for which Alberta is noted.

The four years devoted by Mr. Horn to the preparation of this book have been well spent. A researcher would have to ply through seemingly interminable government reports to extract all the information he has packed into a few chapters on natural resources. He has presented one of the most clear-cut and informative histories of the church in this province that one could wish to read, and as an example of the painstaking efforts, it may be mentioned that he went to England for corroborative material on the Anglican church.

Among the most engaging features of the book is the chapter entitled "Gems from Alberta's History" in which there is a vast treasure of detail. You are told where the first coal mine was located here. The names of the families who originally farmed in some of the best known sections of the city today are given. The location of the tree that bore the first apple in Edmonton is recorded. There is a description of the arrival of the first auto here, in which, thanks to the courtesy of the owner, the late J. H. Morris, this reviewer as a boy had many pleasant rides. You may learn that in 1865 this city's population was 1,200. How many times the name of McDonald and Kelly were listed in the directory of that year.

Yes, and in 1895 wheat yielded 45 bushels to the acre, 125 bushels and barley 60 bushels. There were 31 telephone operating here as compared to 25,423 today. Small matters, maybe, but interesting nonetheless.

By whatever measure you judge Mr. Horn's book, the inevitable

Young Students Present Concert

Sponsored by the Fort Augustus Chapter of the IOBE, students of the Dominion Institute of Music, under the direction of Ray LeRoy, appeared in concert at the Empire theatre on Friday night. The audience was large and fully appreciative of the efforts of the young musicians.

MR. OLSON, who has labored diligently and unrelentingly on behalf of more and better music, obviously had given unstintingly of both time and effort in order to make the concert a success. Taking part were students of tender years in early stages of instruction, as well as those of greater maturity and experience. All showed unmistakable evidence of careful preparation and intensive rehearsal.

Mayor Harry Ainlay spoke briefly, praising the efforts being made to further good music in Edmonton and praising the fine work of the young musicians.

NOREEN BRISTOW, soprano, sang Prelude by Ronald and Giamini Mia from "The Firefly" by Priml. She displayed unusual artistry in her exposition of the songs, giving careful attention to phrasing and diction and revealing a warmth of tone well suited to the numbers. At the piano was Bessie Campbell Bowen.

Comedy numbers were supplied by Clayton Wickhorst and a demonstration of magic was given by Sandy Petrovich.

At the piano for the orchestral accompaniments was Mrs. E. T. Bentley. Other parts of the program were: Violin orchestra, Beethoven's March, Golden Sunbeams, Country Gardens, Woman is Fickle; Hawaiian guitar orchestra, under direction of B. Everett; Spanish Fandango, Country Dance, One, Two, Three, Four; violin orchestra, Barcarolle, Mountain Belle, Chop Sticks, Cradle Song; Richard piano was Harry Ainlay; violin orchestra, Golden Rod, When Irish Eyes are Smiling; Hawaiian guitar orchestra, conducted by O. Phillips, Sweet Melody, Primo Duett, Hawaiian Guitar Ensemble, Kailua, Oni Oni Hula, Sailing Back to You, Aloha, sextet of four sets of twins, Patricia and Sean Stainton, Phoebe and Ruth Robertson, Raymond and Ralph Grenette, Richard and Robert Anderson; violin and guitar orchestra, Merry Widow Waltz.

Conclusion is reached that it is an unusual and exceptionally valuable compendium for its educational, historical, educational and reference value. This chapter pioneers the salute. Well done, Mr. Horn—J. O.

at last!

Arrange Program For Music Festival

Preparations are well advanced for the tenth Edmonton and district music festival which will be held at McDougall United church and the Masonic Temple during the week of May 6.

HERBERT G. TURNER, secretary-treasurer announced Saturday that choral speech and associated competitions would be held at the Masonic Temple during Monday, May 6. That evening at McDougall church, senior events will be held. On Tuesday, competitions will be held throughout the day and at night there will be events for rhythm bands, open house classes and an organ recital by Dr. Charles Peaker, director of the Toronto Conservatory of Music, who will adjudicate the vocal and instrumental classes. There will be a reception after the recital.

ON WEDNESDAY night, choral groups will be heard including large and small choirs, choral societies, and others.

Open piano and scolario events will occupy Thursday evening. There will be no competitors in the open piano class.

JUNIOR GROUPS will be heard on Friday night, and the judging concert of winners will be given on Saturday night.

Mr. Turner said the number of entries was gratifying and indications were that evening competitions would be up to standard. He expressed some disappointment over the failure to enter of some who might qualify for gold medal awards.

Refresher Course Is Planned Here

The medical faculty of the University of Alberta, working in connection with the Alberta division of the Canadian Medical Association, is holding its fifteenth annual refresher course for the doctors of the province, commencing on May 13.

A distinguished group of outside speakers are named in the program. Dr. C. C. Sturgis of Ann Arbor, director of international medicine

and the Institute for Medical Research in the University of Michigan are presenting three papers, and Dr. A. D. MacLachlin, professor of surgery at the University of Western Ontario will also be present. Dr. C. W. Burns, assistant professor of surgery at Manitoba will also appear on the program. Approximately one hundred and fifty-five doctors are expected to attend.

Old Faithful, a seyer in Yellowstone Park throws 250,000 gallons of steaming hot water 130 feet in the air every 70 minutes.

The ROAD AHEAD

By HARPER PROWSE, M.L.A.

ONE fact which is becoming increasingly clear is that no nation can live on itself alone in the modern world. Whether we are interested in the welfare of the peoples of other, far-off nations or not, we are affected by things which happen in Europe, in Asia, and in isolated islands, just about as much as we are by what happens here at home. It is certain that if we would build a prosperous Canada, then we must also help to produce prosperity in the other nations of the world.

Advertising Bureau President Elected

Succeeding Walker Blake as president of the advertising and sales bureau of the Edmonton Chamber of Commerce is George B. Cooper, who was elected at a meeting held Friday in the Club Roosevelt.

Other executive positions will be taken over by W. B. Cowan, vice-president; Mrs. Winifred Sutton, secretary; Don McKay, publicity representative; and four directors: T. A. Shandro, George E. Hill, H. E. Hamly, A. S. Woodland.

D. E. C. CAMPBELL, provincial director of tourist publicity, spoke on "The Tourist Herd and Your Advertising Dollars."

He expressed confidence that this would be a big tourist year for Alberta, and advised businessmen to polish up on their courtesies and their service and to meet American and other visitors with the special warmth that would not be forgotten. He said the businessman was the guardian of Canada's personality insofar as tourists were concerned and much goodwill could be built and maintained through him.

Students to Leave For Sea Training

Close to 100 student members of the University of Alberta Reserve Naval Training Division will leave in about two weeks for the Pacific coast for a summer training cruise aboard H.M.C.S. Charlton, one of two frigates assigned for training of university naval reserve personnel.

CMR. BAKER is in Edmonton in connection with the training program of University of Alberta naval division. The commander is on the staff of Capt. H. F. Pullen, in charge of university naval training division for Canada.

There are naval training divisions of the reserve in 15 Canadian universities. The commander is on the staff of Capt. H. F. Pullen, in charge of university naval training division for Canada.

Object of the university reserve training program is primarily to train men for naval occupations, and particularly to qualify men for commissions in several branches. The commander plans to remain in Edmonton for about three days.

THE QUESTION
What do you think of the proposal to erect an arena on the triangular area bounded by 211 avenue, Kingsway and 102 street?

THE ANSWERS
LEW LORSON, salesman: The need for a central arena is great, and it would appear to me that the site designated by the city council is not as good as any other it is not possible to place the structure on the city center.

WILLIAM PEACOCK, clerk: I am not fuzzy about the site if they will build an arena that does not take all night to get to. The proposed site is OK by me.

JAMES THOMPSON, secretary: I have heard a lot of complaint about the continued use of the arena as a sports center, but I think any reason why it should be abandoned. Give the fans good hockey and they will travel to the arena.

Canadian Army Role is Outlined

The important role of the Canadian Army which spearheaded many of the attacks in the capture of Sicily and the advance up the leg of the Italian boot as far as Ortona was outlined at a meeting of the Edmonton Military Institute on Friday night by Major J. C. Jeffries, CBE, DSO, ED, who was in command of the Royal Canadian Regiment during that period.

He outlined the intensive preparations for the invasion and the role of the landing in Sicily, describing the huge armada which had accompanied the troops.

A running commentary of the campaign from there on to the time he had left the field in Italy highlighted the talk.

Members of the institute will be donating a cup for boxing competition by cadet teams of all three regiments. It was decided on Friday night. Small individual cups will also be presented to winners.

Carnival Show Here on April 29

Edmonton's own carnival, the Midwest Shows, are opening their season playing from Monday, April 29 to May 4th on the Hudson's Bay parking lot before starting a lengthy swing around Alberta and exhibitions in Saskatchewan and Alberta.

S. RUSS, 10210 114 street, owner of the show has built up a midway consisting of four rides, six shows and various games of skill, which requires five freight cars to move. Special mention is made on the sidewalk "Darkest Africa," by show officials. Only three of the sideshows will be set up in Edmonton.

The bingo booth on the grounds in Edmonton is being operated by the IOOE.

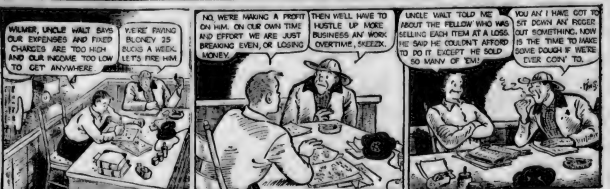

The show opens in the country in Stettler on May 8 and will not return to Edmonton until May 18 in September.

United Church to Open \$3,500,000 Pension Fund Drive April 28

MINISTERS in low-salaried charges like that of the Rev. Ross Cummings, left, at Arntfield, Que., look to the United Church pension fund for security in later years.

Campaign Opens on Sunday

Object of Church Fund For Ministers Is Outlined

Commencing tomorrow and continuing until May 18, laymen of the United Church of Canada will conduct a nationwide congregational canvass for the Ministers' Pension Fund, with the objective set at \$3,500,000.

THE IDEA BEHIND the drive is to raise the fund so that it will be possible for young men of high character and scholastic attainments to enter the ministry without paying the penalty of facing a destitute or poverty-stricken old age.

It is hoped to place the pension fund on a solid basis. Through this action, clergymen, throughout their active service in the church, may rest assured that economic security will be theirs when the time comes to retire.

Here are salient features in regard to the fund and its objective:

Time of Drive: April 28 to May 18, 1946.

Objective: \$3,500,000 for Ministers' Pension Fund.

How: By a personal canvass and appeal directed to all members of The United Church of Canada.

Where: In all Provinces and Newfoundland.

Why is \$3,500,000 Needed?

1. To make it possible for young men of high character to enter the ministry without paying the penalty of a destitute old age. Although remuneration is of minor importance to such men, they cannot entirely disregard obligations they owe to their own families.
 2. To provide for aged ministers.
 3. To place Pension Fund on sound actuarial basis.
- FACTS ABOUT THE PENSION FUND**
- Basic Principles of the Fund**
- (a) Obligations of Ministers: All ministers sign a covenant of membership in the Pension Fund. Ministers ordained since 1925 are assessed at least 5 per cent of their salaries, and some up to 7 per cent.
 - (b) Obligations of the Church: The church undertakes to provide for ministers:
1. A living allowance, or salary, while on active work.
 2. A retiring allowance, graduated according to the number of years served.
 - (c) Provisions and Benefits:
1. All ministers ordained since Church Union, and all members of the Superannuation Fund, receive a retiring pension at age 68 of \$20.00 for each year of service.
 2. Ministers ordained since Church Union receive a minimum pension of \$40.00. A widow receives two-thirds, or a minimum of \$100.00. Orphan children receive \$100.00 per year until age 18.
 3. Upon the death of a minister there is a mortality benefit of \$100.00.
- What Does the Pension Fund Do?**
1. **ENABLES MINISTERS** to undertake their life work on extremely moderate salaries in the knowledge that a portion of their salaries will continue to be paid to them in their old age as a pension.

Are You Downright Tired?

Now is the time to remind you of what Dr. Chase's Nerve Food can do to help you overcome chronic fatigue which causes so much discomfort at this time.

Many people are working too hard or too long hours. Others have exhausting worries and anxieties to upset the nerves.

So many have obtained relief by the use of Dr. Chase's Nerve Food that we feel that the good word should be passed along.

When you become chronically tired out you may be aware that the inside organs which control digestion and other body functions are also tired and that the processes of digestion and elimination are slowed down.

Indigestion, headaches, loss of sleep bring you discomfort which are soon relieved by the use of Dr. Chase's Nerve Food. Ask your druggist for the economy size bottle of Dr. Chase's Nerve Food.

Dr. Chase's Nerve Food

YOUNG PEOPLE of the Arntfield church where Mr. Cummings has a mission charge of 750 square miles come once a week to his home to visit and assist him. The pension fund campaign will be launched April 28. It helps small churches obtain ministers.

LARGEST rural Protestant church in Canada, the United Church has 1,514 small congregations such as the Arntfield, Que., church, above, which raise less than \$3,000 annually.

pension, by the Church they have served.

Today the Pension Fund supports:

- 624 Aged Ministers at annual cost of \$482,131
- 732 Widows at annual cost of \$281,199
- 86 Children at annual cost of \$7,184

1964 \$780,514

Number of ministers in active work for whom adequate pension reserves should be built up 2,600.

FACTS ABOUT MINISTERS

1. The Minister Pays for his Own Education—

1. The regular course of study covers 7 years (4 years Arts and 3 years Theology).
2. Total cost of education is between \$2,000 and \$4,000—during which minister earns nothing and often starts ministry in debt.
3. Average minister is 31 years old when he begins ministry.
4. In rural areas he must pay for his own car.

5. He cannot add to his income by outside jobs but is expected to give generously to charities, etc.

6. He receives from place to place, he rarely owns his own home.

7. HE RETIRES AFTER 35 years of service—facta cost of "settling up" home.

8. What do ministers receive? 50 per cent. receive \$15,000 or less per annum.

24 per cent. receive \$15,000 to \$1,800 per annum.

Average salary of all ministers—\$1,675.

FACTS ABOUT SOURCES OF INCOME FOR PENSION FUND

The United Church Pension Fund is derived from:

1. Assessments on Ministers' salaries.
2. Assessments on Pastoral Charges.
3. Appropriations from the Missionary and Maintenance Fund.
4. Capital Rarings.
5. Grant from United Church Publishing House profits.
6. Employers' contributions, viz: WHEN A MINISTER has no church, but is engaged by Church Board or the Bible Society, etc., the employer pays an amount into the Pension Fund in lieu of the amount that would have been paid by the local Church.
7. Gifts, donations, legacies, annuities.

FINANCIAL FACTS ABOUT THE NEED FOR NEW CAPITAL

\$3,500,000 new capital for the United Church Pension Fund is needed—because:

1. The Pension Funds of the three uniting churches were deficient in Capital at union.
2. More than one-half (1,514) of our churches have only \$3,000.00 or less, each for all purposes; and about 300 churches raise 50 per cent. of all donations to the Missionary and Maintenance Fund.
3. GRANTS from the Missionary and Maintenance Fund are insufficient for Pension Fund purposes. Although statistics estimated that the Fund requires \$100,000 annually from the Church, the annual grant in depression years dropped to \$25,000.

Road Ahead

(Continued from Page Eleven)

is good. Our prestige is high. Our economy is prosperous.

BUT CANADA does not produce the things we require to live. We must import many things—sugar, tea, coffee, chocolate, spices, to mention only a few of the most common of our imports. We must import many kinds of manufactured goods.

These things which we do produce and produce we have in abundance. We must export much of the produce of our forests, farms and mines—40 per cent. of everything we produce, in fact—our economy is to remain so long as we are able to provide employment opportunities during the war years.

If we hope to maintain the degree of industrialization which we achieved during the war years, we must produce for war-worries, and war-related markets—then we have got to find external markets for many of the products of our new factories. We just haven't the population in this country to consume all the things we are capable of producing.

IT IS FOR THIS REASON that Canada must take lead of our world neighbors—our potential customers. A bank-rupt Europe, a poverty-stricken Asia will not be able to pay up for those products of ours which they need to get their economies on a sound basis. It is more than humanly and industrially possible to get their economies to take care of your customers.

Canada's trade to Britain and France are not merely gestures of goodwill; they are not based on pity—they are to provide those war-torn countries with the credits necessary to purchase the goods we want to sell. By giving them these credits now we will create markets in those countries for the goods we must export to survive.

AS A COUNTRY which must export 40 per cent. of its products we must be willing to sell those exports at a price which can meet the competition. The price we get for those products will, to a large extent, determine our price level here at home. And that overall price level will determine, to a large extent, the wages our workers receive and the profits which our businesses and enterprises can take.

On the world market we must be able to compete against the efficiency and savings of American mass production methods and European and Japanese methods. This means that we will not be able to pay wages as high as the Americans, but, because we have some mass production savings, we can

Horror Conditions In Russian Camps

LONDON, April 27.—(AP)—The Russian radio said last night that 5,000 to 4,000 Germans die each week amid "horror" conditions in camps in the Russian occupation zone in Germany.

Throughout the zone, the broadcast asserted, children are suffering and old and weak men are being brutally raped.

The radio broadcast said it developed as "an eyewitness account of the plight of Germany's east."

"THE GERMAN PRESS is not allowed to mention the extent of the suffering," the broadcast said.

The eastern half of the Russian zone has been ruthlessly plundered. There are not even seeds for the coming year."

Out of 75 of the 40 convicted men still facing execution. The others drew prison terms of five years to life.

Europe, yesterday commuted the death sentences of five German officers of the Iachau concentration camp to prison terms, leaving

pay wages higher than both Europe and Asia—and still be able to meet competition. This will determine our standard of living.

Commute Sentences Of War Criminals

WIESBADEN, Germany, April 27.—(AP)—Gen. Joseph T. McNarney, United States commander in Europe, yesterday commuted the death sentences of five German officers of the Iachau concentration camp to prison terms, leaving

pay wages higher than both Europe and Asia—and still be able to meet competition. This will determine our standard of living.

Find No Trace Of Missing Jade

VANCOUVER, April 27.—(CP)—The mystery of four valuable white jade necklaces, property of Henri Bar, French millionaire banker, who vanished in mid-Pacific nine days ago from the Vancouver-bound S.S. Samwara, deepened yesterday.

It was revealed that the necklaces might have been on his person.

The ship, berthed at New Westminster, was searched from stem to stern by Royal Canadian Mounted Police and detectives, but there was no sign of the necklaces or Bar's body.

EVEN THE EXISTENCE of the necklaces was questionable since no one aboard the Samwara had ever seen them, although Bar told one member of the Samwara crew that he was wearing them around his neck.

While developments throw light on more unanswered questions, police have not yet been allowed to view the contents of 23 wooden chests belonging to Bar, taken from the Samwara's hold and placed in bond.

300. This ever-increasing deficit must now be met with new capital.

During the depression Ministers' salaries were reduced with corresponding reduction in their assessments for the Pension Fund.

In 1929 ministers' salaries totalled \$3,549,530

In 1939 ministers' salaries totalled \$3,899,903

A decrease of \$1,440,827

THE REDUCTION in ministerial assessments in this 10-year period represents a loss of income to the Pension Fund of about \$800,000.

3. Interest rates have declined. In 1931, the interest rate on Pension Fund capital was \$27,502. But in 1944, the interest on a slightly larger capital was only \$17,200.

6. Until 1932, compassionate grants were paid out of the Pension Fund, instead of from the general funds of the Church. These payments amounted to \$67,744 in 10 years.

THE PLIGHT of the Pension Fund is not due to poor management or lack of foresight, but to the inability of the United Church, in the early stages, to organize its life and work and then, in the period of economic recession, to put the Pension Fund on a proper basis. The time has now come when the necessities of the Fund should be met. For this purpose a total of \$3,500,000 is urgently required and will be raised by this campaign by direct canvass and appeal directed to all members of The United Church of Canada.

Scouts to Follow Explorers' Routes

CALGARY, April 27.—(CP)—Eighteen Calgary Scouts with a group of Scouts from Montreal, Spokane, Seattle and possibly other Canadian and American cities will undertake something new in the way of adventure this summer when they follow the routes of early explorers, and travel by canoe from Revelstoke to Kelowna. The boys will travel by Revelstoke by train, and embark in the Columbia River from there. They will go down the river, through the Arrow Lakes to Clearwater, by boat to the Revelstoke, and by water up the Kootenay Lakes to Kelowna. They will leave Revelstoke about July 15 and plan to be in Kelowna the first week in August in time for the annual water regatta.

Alberta District News Briefs

Cross Dangerous River On Three "Mercy" Trips

GRANDE PRAIRIE—The swift-flowing Red Deer river, 20 miles southwest of here has been crossed three times in the last week by three different operators of a small government boat.

Great personal risk was involved in the journey, made necessary by emergency cases for the Grande Prairie municipal hospital. Experts roved across the swift water were 10-year-old May Ryan, and 16-year-old Yvonne Elliott, both an emergency cases. Mr. Osborne not only carried the sick girls during the treacherous journey but also made himself responsible for transporting them the 20 miles to the hospital over rough roads.

The latest emergency occurred in a housing case when the wife and baby daughter of Adam Kennedy were ferried across. Following the first two emergency cases, neither of the district busied themselves in constructing a basket which operates on a ferry cable.

Store Purchased

MILLET—E. H. Wegner, who has been living in the New Sarpen district, has recently purchased the Clover Lawn store, just east of Millet, which was owned by Max V. Brown. His brother P. Wegner, late of the ICA, is operating a trucking service in connection with the store. The Millet Women's Institute held their April meeting at the home of Mrs. Bert Harkness Thursday with a good attendance. Two parcels were picked for civil last overseas. A social evening was held at the home of Mrs. H. Phillips Saturday evening under auspices of the W.I.

Guest Speaker

WETASKIWIN—It. J. Montgomery was guest speaker at the Kiwanis meeting on Tuesday. His talk covered the manner in which the sale and donation of old and prize winning fox and min hinds was conducted. Following the meeting members of the club entertained the Hamilton Tigers and

Garage Burned
WRECKED—Fire of undetermined origin destroyed a garage owned by J. Kramer, Thursday. An automobile in the structure, together with a wood pile and small shed were also lost. The auto loss was covered by insurance.

Moot Gas Service

MANVILLE—Board of Trade is investigating the possibility of installing a natural gas system in this town. Lloyd Nickelson and Elizabeth Johnston were married in a recent ceremony at the United Church mine. Little work has been done so far on the land in this district.

Rummage Sale

VEGEBVILLE—Women's Auxiliary to the Canadian Legion held a rummage sale recently when over \$200 was raised. Peter Wylie of Leduc was renewing acquaintances very this week. Payroll dance was held in Warwick school for Mr. and Mrs. W. Campbell who are leaving shortly for the Pacific coast.

Present Drama

HARDISTY—YPU play, "Look Me in the Eye," after being presented in Loughheed, Alliance, Hughesden, Hardisty and Daysdale, will appear in three other district towns shortly, under direction of the Rev. A. Edworthy. Special music, christenings and acceptance of new members marked the Easter services at local churches last week.

Open Memorial Hall

SEDOGWICK—With a prayer of dedication by the Bishop of Edmonton, the new memorial hall at St. John's Anglican church was opened recently in memory of those men from this district who gave their lives in the recent war.

Junior Baseball

SUNDAY—Junior baseball practices: Arrow—10 o'clock at Victoria; EAC—10 o'clock at Golf Links; Calder—2 o'clock at Calder school.

BEAUTIES CAN COOK—Challenging the New York statement of Shawnaa Billy Rose that beautiful girls don't go in for higher education, students at the University of Manitoba have invited him to come and see their campus mums, such as blonde Betty Cameron, shown here.

They will live, petitions with nearly 300 signatures have been drawn up new protesting appointment of a new post office manager. It is felt that an official other than the chosen should have been given the position. Conversion of a town dwelling to make space available for the new post office is under way.

At Organ Console

VETERAN—Miss Norma Ross, 16-year-old Victoria resident, presided at the organ for a well-attended Easter service at the United Church Sunday. The Rev. Dr. Farner conducted the service while special music was presented by the choir.

To Supply Gas

PONOKA—Citizens of this Central Alberta town may reasonably expect to have natural gas installed in their homes by late summer, according to information received by town officials. A crew of workmen from Calgary is working on the gas transmission line from Pore to

New Buildings

CAMROSE—Three new structures are to be built on Main street with the basement already prepared. The Builders Hardware is erecting a building 50 by 100, Dr. Neville an office building 25 by 36 and D. R. Francoeur, a building 25 by 30. This property has been vacant since the town was incorporated 40 years ago.

Now Have \$7,446

CAMROSE—Swimming pool fund has reached a total of \$7,446, having collected \$10,000. Thirty canvassers, headed by Theodore Bailey, Camrose Memorial Swimming Pool fund chairman, are making every effort to achieve an up-to-date swimming pool here before the summer is over.

Joins Husband

CLIVE—Mrs. A. W. Foster and her two sons have this week to join her husband in Calgary where

ADDITIONAL SPORT

Garneay Juniors Elect Officers

Mary Collins was elected president of the Garneay Junior Tennis Club at a recent meeting held in the club-house. Other members of the new executive include Jack Thorburn, senior advisor; Bill Henning, past president; Elizabeth Milson, vice-president; Margaret McKay, secretary; Thelma Vango, treasurer; Beth Newton, social convener; Derek Batchelor, tournament manager; Lois Tweed, coaching committee; Nellie McClung, press representative.

With a new coaching committee to help new members, Garneay Juniors are looking forward to a highly successful tennis season.

Juvenile Baseball Practice Sunday

A practice is being held for all those interested in playing midweek or juvenile baseball with the EAC's. It is timed for 11:00 Sunday morning at Diamond Park (below McDougall Hill). Babe Brinkworth and Ernie Smallman will be in hand to look the prospects over.

Courts Are Open At Civil Service

With a banner year in sight, the Civil Service Tennis Club opens its courts for play today. Official opening day will be announced later.

Monarchs To Get Civic Reception

WINNIPEG, April 27.—(CP)—Winnipeg Monarchs are assured of a civic reception when they return here—win or lose in the deciding game of the Memorial Cup hockey

Guide to Home Builders

Condition Soil Before You Start Planting

compounds are used. Just a tiny pinch of chemical powder before placed in the seed packet, the flap closed, and seeds and powder shaken together until the seeds are completely coated. The amount of powder to be held on the big end of a toothpick is sufficient to treat a 10-cent packet of seed.

CHEMICALS EASIER TO USE

One of the advantages of this treatment is that these chemicals can be used dry, thus avoiding the messiness of liquid mixtures. Another advantage is that the garden can be treated now, even as soon as it is in a dry place until planting time without danger of injury. Arsenic is recommended for all seed except carrot, lettuce, endive, Cucumber can be used for peas, cucumbers, melon, squash, and other large seeds such as spinach, tomatoes and beans—but don't use it on seed of the cabbage and onion families. Seeman is applicable to cabbage, cucumbers, melons and most seeds except lima beans. Seigron is good for lima beans and peas.

Seed treatment improves larger yields and better quality vegetables by reducing the possibilities of this stands and weak or stunted plants.

The tiny pinch of chemical powder seen on the end of the toothpick is enough to standard a 10-cent packet of seeds.

The gardener who believes that a good beginning to half the job has already made preparations to start some of his long season plants either in the hotbed or in the house.

The time to sow your seeds depends upon the weather and soil conditions. To receive the tender seedlings, a rule, seed should be sown six to eight weeks before the last frost-free date in your area.

Success with starting plants usually with Toronto's St. Michaels Saturday.

A danger ring will be presented by the city to each member of the team, if they win.

But, if you lose, the Winnipeg reception committee decided Thursday they would entertain the team on its return.

"They should get a banquet win or lose. They are making a powerful showing down there," said Alderman J. G. Harvey.

Men's Fastball

Men's fastball practices for Sunday.

Dainty Cakes' seniors: 10 o'clock at Boyle Street.

Combined Juniors: 10:30 o'clock at Boyle Street.

Equines' Juniors: 4:30 o'clock at Boyle Street.

Louis and Conn To Have Exam

NEW YORK, April 27.—(AP)—Heavyweight champion Joe Louis and challenger Billy Conn were ordered to appear before the New York Athletic Commission May 2 for a preliminary physical examination by chairman Eddie Egan Friday.

They must get the title in New York Yankee stadium June 19.

At the same time the two will formally sign contracts for the bout.

Soccer Workout

North Side Canadian Legion soccer club will work out at Clarke Stadium on Monday evening, June 19, 8 o'clock. All players are requested to be on hand.

WHAT CAN YOU SPARE THAT THEY CAN WEAR?

Coated Her Last Winter!

MILLIONS IN WAR-TORN LANDS WILL NEED ALL YOUR SPARE CLOTHES AND BOOTS NEXT WINTER

What You Can Do!

1. Get together all the clothing and bedding you can spare.
2. Have it bundled and ready to give when the drive opens.
3. Help fill the dire need for:
 - overcoats shoes sweaters
 - topcoats dresses robes
 - suits skirts underwear
 - jackets gloves pyjamas
 - pants caps bedding

COLD, sickness and death still face millions overseas because of lack of clothing. Last winter you helped to avoid disaster. This winter disaster will stalk again. Your help is imperative. They cannot yet buy clothes themselves, they have no money... there are no goods in the stores... there are no stores, only broken shells of buildings. Even if your individual contribution seems small, remember, somewhere there is someone who can wear... who needs... whatever you can give. A single garment, a pair of shoes, a blanket, anything to give protection against the cold and the weather in allied lands devastated by war.

START SAVING NOW... THE DRIVE STARTS SOON

130,000,000 destitute people—25,000,000 of them children—are waiting for what you'll find in your attic and closet. Now... when you're doing your spring cleaning... set aside what you can spare for those in need. Keep a box handy and as you go through the house, put in it the clothes or bedding you need no longer. Keep it in readiness for the opening of the drive. We know you will ransack your trunks and attics and cupboards for every shred of clothing you can spare. You did it before. You can do it again.

Give that they may live!

It's a fable — It's a fact

"LOOK BEFORE YOU LEAP"

Once there were two frogs who lived in a pool. One hot summer the pool dried up but the frogs soon found a deep, cool-looking well. "This looks like a fine place," said the first frog and promptly dove in. But the other frog, who was more cautious, refused to follow. He'd thought of what would happen if the well dried up.

An ancient fable with a modern meaning for to-day's shoppers. Here, at Eaton's, we've simplified the job of careful shopping, made it easy to "look before you buy." As thousands of Canadian shoppers already know, the sure way is to look for the familiar Eaton Brand names. The Eaton Research Bureau and the Comparison Office have the facilities to check on quality and value... to ensure shopping satisfaction!

"PREFER QUALITY TO QUANTITY"

A fox once inquired of her neighbour, a lioness, that a litter of little foxes was an annual event with her but the lioness produced a cub only once or twice in a lifetime. "That's perfectly true," replied the lioness, "They may be few and far between, but every one of them is a LION!"

In shopping, too, it's quality that matters most. And that's what you're assured of every time you insist on Eaton's Own Brands—tried-and-true quality for every cent of your shopping dollar. Moreover, there's the additional assurance that each one of Eaton's Own Brands is backed by the fair-and-square Eaton Guarantee: "Goods Satisfactory or Money Refunded."

"EXPERIENCE IS A SURE TEACHER"

A shepherd, who had always been perfectly satisfied with his chosen career, one day led his flocks too close to the sea and was seized with an uncontrollable desire to become a sailor. He sold his sheep, bought a ship and set sail. Of course, he knew nothing about seamanship and, on the first voyage, the ship was lost and the amateur sailor barely escaped with his life. Needless to say, he moved back to his meadow and stayed there.

At Eaton's we've got 'way beyond the stage of "trial voyages". We've been in business for 76 years, and all that 76 years of merchandising experience goes into the choice and purchase of Eaton's Own Brands. No wonder they have come to be recognized as trustworthy symbols of quality and value.

"DOUBLE PROOF IS SUREST"

A she-goat, off one morning to look for food, left her small son in charge of the house, with instructions not to open the door until the caller had given the password. A wolf, who happened to be loitering outside, heard the conversation and, as soon as mama was out of sight, knocked on the door and gave the password in a high falsetto voice. However, the kid, who was not easily fooled, called out "First show me your beard and then I'll let you in!"

We believe in making sure at Eaton's, too. That's why Eatonian merchandise, an Eaton's Own Brand, is tested for quality by the detail-minded scientists of our Research Bureau... checked for value by the fact-and-figure experts of our Comparison Office... before it ever reaches the shelf or counter.

It's a fact..... EATON'S OWN BRANDS!

INSTEAD OF A LITTLE PRANK TO BREAK UP A ROMANCE,
LILIAN AND HER COUSIN FIND THEIR SCHEME HAS PRODUCED
MAGEDY IN THE FORM OF A BODY-THE BODY OF MORTIMER.

THAT GINKY

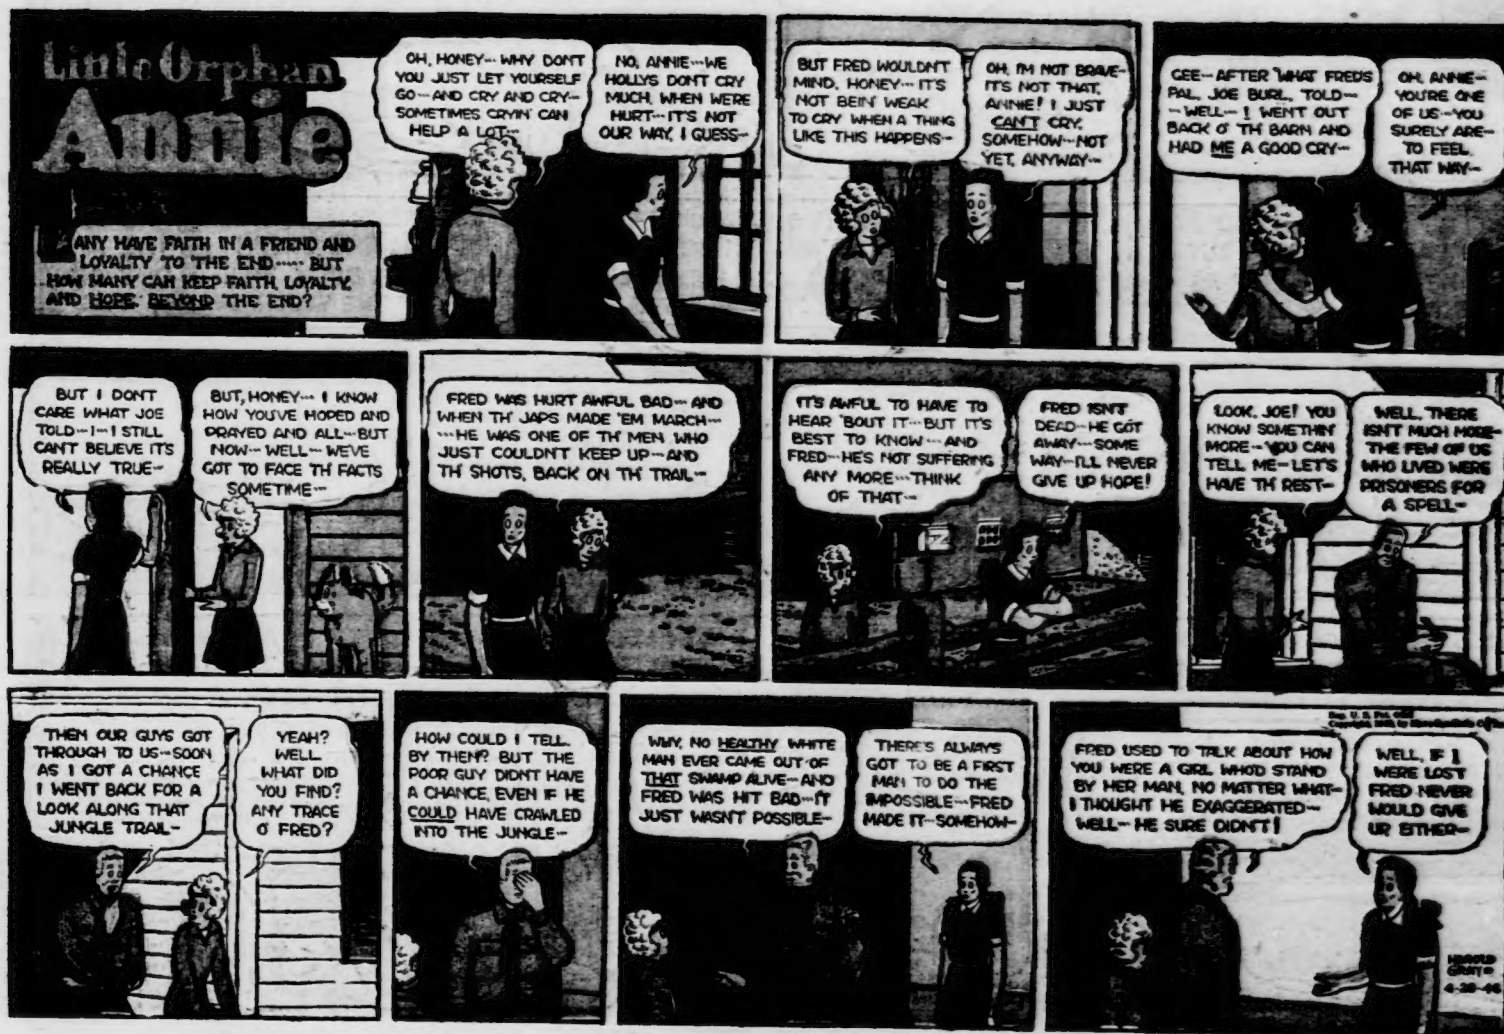

ENKY saw the Teenie Weenie mouse when they located up the shoe house and set off in search of wild flowers. The crafty mouse had been hiding behind a couple of dry leaves and he knew the little people would be gone for some time. Almost before the Teenie Weenies were out of sight he went to work to break into the old shoe. Anyone but Ginky would have considered the ethics of forcing his way into a house, but that mouse is totally indifferent to legal restraint and he pried open the kitchen door, which had been bolted from within, with the aid of a paper clip. Although Ginky is lazy beyond a fault, he will sometimes lift a paw in the interest of good food. He busied himself in opening drawers and cupboards. He popped his inquiring nose into every nook and corner of the tiny kitchen. He found a smoked turkey ham, cut off several slices, and put some wood into the Teenie Weenie stove. Next, he made himself a pot of rassafrazz tea and put some turkey ham into a Teenie Weenie skillet to fry. While the meat was frying, he found a couple of Teenie Weenie cherry seed of jam and a shell of took a plate and a cup and saucer to set on the table. When the cupboard. It was the Teenie Weenie was starting in on his when the Teenie Weenie returned to the kitchen door was partly open up on the unsuspecting mouse.

he was caught, tried to bribe out his evildoing. "Excellent ham, folks," he said, with his mouth full of ham, and waving a piece of ham on a fork. "What do you mean by coming in here and eating up the food we had saved for our supper?" asked the General frigidly. "Food isn't to be saved," argued Ginty lightly. "The Tenite Weenies were too upset to argue the matter, and so they dragged Ginty out of the kitchen and locked him into the glass front in that corner

the little folks for a fall. There he would be kept until some suitable way could be found to punish him. The house was a mess. There was jam on the floor and a lead spoon had melted on the top of the hot stove, where the mouse had laid it. It was past supper, for the Lady of Fashion could eat their supper, for the Lady of Fashion demanded that every single dish and pan in the kitchen should be thoroughly washed before they were used to cook Teenie Weenie food.
